

How Many Hands High is Your Pet? (or, Mom/Dad, sibling, your bed, or toothbrush?)

- o Grab a ruler or a yard stick
- o Have your pet at home stand up
- o Place the ruler or yardstick by the animal's front feet (if 4 legged animal)
- o Measure from the floor to the top of the animal's shoulders

- o 1 hand = 4 inches
- o Use a pencil to mark on the ruler the height of the animal.
- o ***How many hands high is your pet, Mom/Dad, sibling, bed, or toothbrush?***
- o What else in your house can you measure with hands?
